Additional Information

Academic dishonesty (cheating) in any form, including plagiarism, will not be tolerated. Such will lead to a failing grade for the assignment. A second offense will result in a failing grade for the course.

Rosetta Stone: Students should work at their own pace on Rosetta Stone over the course of the school year. On the schedule is a rough outline of the progress students should be making with Rosetta Stone as we advance through the course. The instructor will periodically request a screenshot of each student's Rosetta Stone program via email in order to assess the students' progress.

Homework: Homework assignments are in the form of handouts that will be given to each student at the end of each class period. The exercises in these handouts are to be completed by the student and turned in at the beginning of the following class period.

Tests: The content of each test is attached to this syllabus. Students will be tested on Levels 1, 2, and 3 Vocabulary, Grammar, Reading/Writing, and Listening/Speaking. Students should begin right away studying the study guide below, memorizing the vocabulary and grammar, and familiarizing themselves with the questions in the last section. This study guide IS the test. And each test is cumulative, meaning that each level test includes all previous levels. (Level 2 vocabulary, for example, includes all vocabulary for Levels 1 and 2.)
